Cmdr. SGT Major. (ret.) G. Gravino, Sr.  
Pres./CEO  
Whiskey Seven, LLC

Dear Sir;

I'd like to once again express my sincere appreciation for the excellent work undertaken by W-7 to assist Cell Science Systems, Corp. in resolving a complicated business matter in India. The mission included strategic planning, negotiations and security functions, all of which were carried out flawlessly and with obvious long term benefit to my company in this strategically important yet difficult market (India) for small technology companies, such as mine.

I would recommend that companies both large and small look into the utilization of Whiskey Seven's expertise in any project that requires deep market insight, strategic planning and execution of project; especially in projects of higher financial value, where there is any form of uncertainty, increase risk of loss and possible danger to personnel and/or cargo, technology or tangible resources.

The W-7 resources are formidable and the management understands well the needs of commercial companies.

Hence, I give my endorsement and permission for distribution of this letter as you see fit.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger Deutsch". The signature is fluid and somewhat stylized, with a long horizontal stroke at the end.
